“The Jews did this to France”

Antisemitic blame narratives on X during the French unrest

Analytical report · CAM Antisemitism Research Center · October 18, 2026

Black Panther
@AhmdAbwzyd9206

What you are witnessing in France is the end of the global Zionist project —that wretched dream of a world run by unelected planners. It is collapsing all across Europe simultaneously, and America must excise this cancer before it destroys the rest of the body.

Anti-Dehumanization League
@TheTrueADL

this all because you terrorists send all the money to israel and your masters in the jeffrey epstein pedo cabal. nothing left for the french people.

you got too greedy and too evil. israel has destroyed france.

Abdulsatar Bochnak

France: Massive Protests Against Cost of Living and Deterioration of Public Services

The Jews are concentrated in New York first, then Paris second, London third, Antwerp fourth, and the rest have their center in Herzliya, and they are the ones who run the game of money, media, politics, elections, and rulers without anyone else on the entire planet Earth, and in Berlin and Munich first of all.

"Israel is behind the demonstrations taking place in France"

“The Jews did this to France”

October 16–18, 2026 · All times ET

For the fourth time in under three months, CAM’s Antisemitism Research Center has documented the same pattern on X. When tens of thousands of migrants crossed into Ceuta on July 30, 2026, posts from 119 influencer accounts recast the border crisis as a Jewish plot, reaching an estimated 103 million people in 72 hours. On the 25th anniversary of 9/11, the attacks were recast as a “false flag” plot by Jews and Israel. When terrorists tried to hijack FlyDubai flight FZ1073 to Tel Aviv on September 30, 2026, the first post blaming Israel appeared 67 minutes after the distress signal. Now riots in France are being blamed on Jews, Zionists, the Mossad and Israel. Each time the event changes, but the story is the same. A crisis hits, Jews are blamed, and social media accounts reinforce the lies on a huge scale.

816

unique accounts

1,384posts linking the unrest to Jews,
“Zionists”, Israel or the Mossad**7**posts calling for violence against,
expulsion or extermination of Jews

Posts from the far right and other groups were tracked. Far-right and white-nationalist accounts wrote 21% of the posts but drew 34% of all views and 42% of likes. Islamist accounts wrote the most posts (419, or 30%).

Most posts were written in English. English accounts for 69% of posts and 86% of views, with many replies aimed at Jewish, pro-Israel and US commentators, such as “Jews did this to France. Don’t let them do it to America.” (@Jvnior, 182k followers).

Verified accounts carry the reach. 144 X Premium (blue-check) accounts posted 224 posts (16%) that drew 73% of all views. X Premium is a paid subscription where X will boost posts to earn ad revenue, which helped the reach of the antisemitic posts.

How it took off

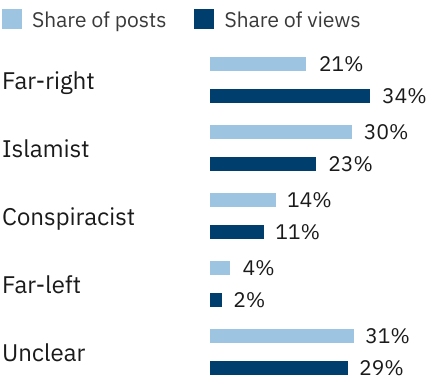

The narrative was in place before the protests began. It started as a small French-language conversation, with 74 posts in the first 24 hours. Once the protests turned violent, English-language accounts took it over, and 784 posts followed the next day.

The narrative and its variants

Across languages and ideologies, profiles on social media advance a single narrative. France’s unrest is presented not as a domestic crisis but as a deliberate operation orchestrated by Jews, Zionists or Israel.

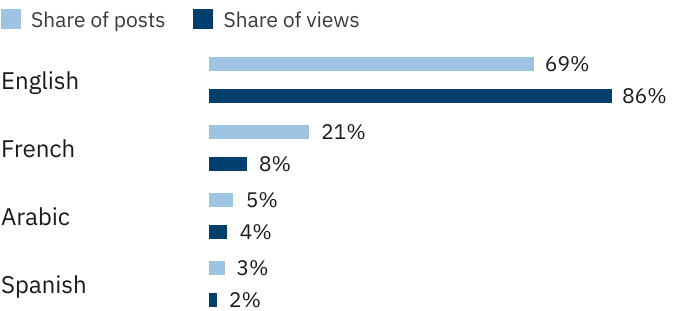

VARIANT	SCALE	EXAMPLE
Jewish elite orchestration	Highest reach	“Whatever’s happening in France, the root cause is actually Jewish capture of the West” @LearnToToad
Israel / Mossad orchestration	Largest by volume and common in Islamist, Arabic and Spanish posts	“Translation - Mossad is burning France right now” @RealNetTechNerd
“Zionist” manipulation	Large accounts in English and French	“The agent of Zionism leading the brown masses to destroy Paris” @hayasaka_aryan, 263k followers
“Pro-Israel accounts are behind it”	Newer framing with most flagged posts	“Israel is feeding the chaos and punishing Europe” @MariamOssamaa, posted 32 times in about 2 hours
Kalergi / Great Replacement	Driven by one spam account	“Jewish NGOs actively imported these people as part of a long planned civil war” @ibozoouu192103, one of 107 replies
Rothschild / “ZOG” / money	Macron’s ties to the Rothschild bank. Mostly French posts.	“Everyone is getting poorer for ZOG's benefit.” @PaxTubeOfficial
“Who benefits”	19 posts	Rare, but appears in long-form “Jews benefit from every revolution” threads.

By ideology

Without the 20 flagged posts, far-right rises to 53% of views and Islamist falls to 12%.

By language

Arabic posts have the highest median views per post (54), helped by large accounts.

METHODS AND CAVEATS

CAM collected 18,381 posts from X using 25 search queries in 7 languages. Any post linking the unrest to Jews, Israel, Zionists or the Mossad was counted as antisemitic, because nothing connects the French unrest to Israel. Researchers read all 4,922 candidate text groups by hand and reviewed the 100 most-viewed posts individually. Other tags come from keyword rules and are indicative. 20 posts (234,860 views) are flagged as possible false positives. Keyword search misses posts that use only coded language, so all counts are a minimum.

High-reach posts blaming Jews or Israel

Selected from the dataset. Posts flagged for review are not shown. Text as posted, with media links and leading reply handles removed. Metrics as of about 6:10 AM ET, October 18, 2026.

"For me all this was orchestrated by the United States and Israel. France/Macron were the ones who criticized Trump and the genocide in Gaza; those two are making them pay for it."

"Ahh yes, the "French" named Omar & Dequan.... Your country has hate speech laws protecting the tribe of people orchestrating this, you can't even begin to criticize them, or you'll be sent to jail. Say something bad about a jew, we'll wait, then watch you go to jail."
